2020

2023

“I was first introduced to Garry from PP Control & Automation through Pim at the Silverstone Technology Cluster and have since developed a valuable partnership. After referrals through their PP Plus network early in the relationship, PP C&A is today supplying one of the key sub-assemblies in Flybrid’s products. This is a great example of the power of collaboration, the STC and the quality of members within its important network.”

**Tobias Knichel**

Managing Director  
PUNCH Flybrid

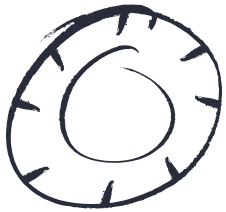

MAKE  
YOUR  
MARK  
+

PP Plus is an **easy access support network** designed to help create a more sustainable and environmentally friendly future by supporting the **growth of technological innovations in the UK.**

Industry disruptors, companies with bold innovations or ambitious machine and equipment builders moving upmarket have an opportunity to **grow faster.**

# 3 PILLARS

## Manufacturing

Partner with industry experts to unlock resources, manufacturing capabilities, market insight, and product development acceleration.

## Business

Access consultants and partners, supporting growth through grants & funding, marketing strategy, planning and scaling up coaching.

## Academia

Support through collaborative research, testing facilities, and academic partnerships, fostering technology development and validation.

# MISSION

**Be the central organisation in a support network that is of influential service to innovators in UK Greentech 'making their mark' and ensuring that the creation of subsequent economic wealth stays in the UK.**

*the power of*  
**COLLABORATION**

A thick, red, hand-painted brushstroke underline is positioned beneath the word 'COLLABORATION'.
