Mission Statement

To secure a future in which our communities prosper from the very best in sustainable ways of living and working.

We collaborate to accelerate economic opportunities created through the region's innovation strengths, to achieve significant environmental enhancements and to unlock investment for inclusive, high quality sustainable development.

Workstreams

- Innovation and Economy
- Environment and Sustainability
- Data Observatory

Innovation and Economy

- International Investment Atlas and Prospectus
- Innovation Network of Networks
- Other projects in the pipeline

INTERNATIONAL INVESTMENT ATLAS AND PROSPECTUS

A region-wide investment portfolio; a digital atlas of projects and strategic collaborations to match prospective investors to local investment opportunities.

INTERNATIONAL INVESTMENT ATLAS AND PROSPECTUS

A compelling value proposition for the region to unlock international and private sector investment for the region's innovation-led economy, underpinned by environmentally sustainable and inclusive growth.

INTERNATIONAL INVESTMENT ATLAS AND PROSPECTUS

- Scoping and consultation
- Index of Assets within the region
- Expressions of Interest
- Assessment
- Narrative
- Digital and Prospectus Draft
- Launch at UKEIIF 2024

Oxford to Cambridge Partnership: Innovation Network of Networks

A network with a core focus upon developing partnerships and collaborations between network and cluster organisations which are focused on innovation, science and technology across the Oxford to Cambridge region.

Oxford to Cambridge Partnership: Innovation Network of Networks

- To bring the community of networks and clusters together.
- Quarterly meetings around the Partnership's region.
- There will be an Annual Network with case studies produced where collaboration among members has been key to the success of their activities
